

MIRANDA SCRUFF RETURNS HOME!

BY TORI MATTHYS, JULEN LETURIONDO
AND JEF SEUNTJENS

A crisis has just been averted. One of Ducentae's locals, Miranda Scruff, was being held against her will by Dexter Burns in Lugua. Luckily, Ducentaen authorities were able to get her back to our great nation and reunite her with her family.

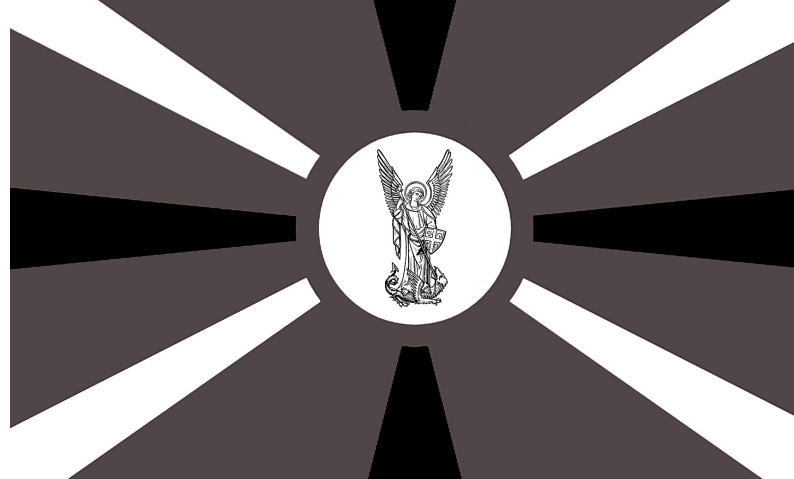

HOW IT HAPPENED: THE TRIP TO LUGUA

A few months ago, Miranda went on a trip to Lugua. Her family told us she was very excited about the new experience. Being a mom, she hadn't been on a trip in a while. She arrived in Lugua and met her buddy, Dexter Burns, at the Troppocone festival. He welcomed her warmly on the first visit. Miranda already started imagining a future with him and her three kids. Sadly, her buddy had other intentions. Dexter used force to have her stay and bear him children.

FROM NEGOTIATIONS TO AGREEMENT

Last week there was a call between the government of both countries to discuss the worrying situation and find a solution. Since Lugua is a country ruled by men, the negotiations did not go smoothly. The call went on for a couple of hours and caused some awkward conversations according to the head of justice Ailin Pena. The government had to drop some of its conditions to ensure the return of Miranda. Of course, her return was the most important outcome of this meeting and the leaders of Lugua shamelessly took advantage of that. Eventually, after a couple of hours, an agreement came to fruition.

THE SOLUTION

Thanks to Freya, and our great mediators, Miranda will soon be back with us. The governments of Ducentae and Lugua have reached an agreement. First of all, Jeffrey Cole will be transferred to Lugua as soon as possible and be served a punishment by Lugua's religious laws and standards. Following this, Buddy Dexter will not be sentenced in Ducentae, but will face an investigation in Lugua with appropriate punishment. Keep calm sisters because Ducentae does not need the tormented souls of these men wandering around our streets.

On the other hand, the church of Lugua will review the buddy system and adapt changes were needed. Their government will make the necessary changes so that no other woman suffers as our citizen has suffered. Their behaviour needs to be under control.

For all this to happen Ducentae has had to withdraw its naval force near the coast of Lugua. Let us never forget that we fight for the liberation and protection of every woman. If we had attacked Lugua, thousands of women would have suffered and that is something we cannot allow. Freya and the soul of Arkeya have helped us on this journey. These dehumanised men will receive their punishment. Please welcome our beloved Miranda with open arms.

Welcome back, sister!
